

GM Recycling

seeks an

ALL-ROUND TECHNICIAN (M/F)

WHAT WILL YOUR DUTIES LOOK LIKE?

- You will solve mechanical, electrical and hydraulic problems on crushers, screens and shredders.
- You will also visit our customers for this, so you are communicative and like customer contact.
- You will work nationally and occasionally internationally.

WHO ARE YOU?

- You have been bitten by technology!
- You obtained a degree in electromechanics, hydraulics, mechanics or electronics, giving you a technical background. Experience is an absolute must, in a technical environment or in the field.
- You can weld and have a basic knowledge of electrical and hydraulic diagrams.
- You have no 9-to-5 mentality.
- You work in an accurate and structured way, like to learn and pick up new things quickly.
- You have your own transport and a driving licence (B).

WHAT WE OFFER YOU?

- You will join a young and dynamic working atmosphere with a team of experienced and motivated employees with room for initiative.
- We have a hands-on mentality and short lines of communication.
- You can count on a competitive salary package that recognises your already acquired knowledge and experience.
- A full-time, permanent contract of indefinite duration (possibly after interim).

Do you have a passion for recycling machines and fancy a varied and challenging job within a stable and ambitious family company? Then don't hesitate and apply now!
